

WEBINAR

Culturally & Linguistically Sustaining Instruction through My Name, My Identity

Connecting with Students through Building Self-Identity and Community!

**Co-sponsored by the Santa Clara County Office of Education and
the National Association of Bilingual Education**

.....

This webinar will provide an overview of a free online course to prepare for back-to-school with ready to use lesson plans co-created by classroom teachers in grades K-12. This course will guide you through the pedagogy and applications that engage your students so they understand the importance of name, self-identity, and the positive impact they can make on their learning community in a hybrid learning, distance learning, or traditional face-to-face environment. Technology tools to support the pedagogy will also be introduced.

Come join a panel of educators to hear their voices on how these lessons can be implemented in your classrooms.
Yee Wan, Ed.D., Director, School Climate, Leadership & Instructional Services, Santa Clara County Office of Education
