

## **San Diego Area Arts Leadership Community**

Southern Counties California Arts Project (SouthCAP) and SDCOE partner in facilitating the San Diego Area Arts Leadership Community. This community of San Diego County TK-12 school district arts leaders investigate arts education topics and current research to maintain awareness of issues and policies impacting arts education in California. The community provides a system of support for San Diego County arts leaders to share, reflect, problem solve, and learn from each other, especially in our current circumstances with shifting contexts in face-to-face, virtual, and hybrid models of instruction. The Community is limited to San Diego County arts leaders.

Please contact SouthCAP Regional Director, Courtney Sawada, [csawada@sdsu.edu](mailto:csawada@sdsu.edu), for more information on joining this community
